PROFESSIONAL SUMMARY

Senior Software Engineer and .NET developer with professional experience delivering web APIs, payment and booking workflows, administrative platforms, assessment systems, and learning software. Hands-on background with C#, .NET / ASP.NET Core, Microsoft SQL Server, REST APIs, authentication and authorization, and third-party integrations. Also leads an independent software company and builds mobile products and student technology communities in Karachi, Pakistan.

CORE TECHNICAL SKILLS

Languages and frameworks: C#, .NET 8, .NET Core, .NET Framework, ASP.NET Core MVC, ASP.NET Core Web API, Web Forms / ASPX

Data and API: Microsoft SQL Server, Entity Framework, REST APIs, SOAP integrations, Swagger / OpenAPI

Application engineering: JWT authentication, role- and permission-based authorization, payment integrations, booking systems, account management, transaction workflows, reporting, localization

Product domains: Fintech and payments, web booking and dispatch, education technology, property management, Android mobile products

PROFESSIONAL EXPERIENCE

Senior Software Engineer | Eurosoft Tech | 31 August 2023 - 22 April 2025

- ? Co-developed k0nnect.com and k0nneCT Pay, two .NET 8 systems comprising an ASP.NET Core Web API and an MVC administration panel.
- ? Built API and administrative workflows for suppliers, clients, accounts, bookings, payment operations, transactions, users, terminals, and reporting.
- ? Implemented JWT-based authentication and role- and permission-aware authorization across API and administrative workflows; documented APIs with Swagger / OpenAPI.
- ? Worked on Stripe-connected test and live payment flows, database-backed transaction records, and integrations for transport, messaging, and booking projects.
- ? Built and deployed more than 30 custom web bookers and contributed to client booking, dispatch, and transportation applications.

.NET Developer | TechSol360 | 2020 - 2023

- ? Engineered API functionality for an ACCA exam testing system.
- ? Maintained a .NET property-management administration panel for Sweet Enterprises, including reporting, finance, accounts, and ledger workflows.
- ? Contributed to the development and maintenance of an enterprise learning management system.

LEADERSHIP AND COMMUNITY

Founder and President | SZABIST Future Software Developers Club (SFSDC), Student Societies Council (SSC), SZABIST | 2026 - 2027

- ? Founded a student technology community focused on practical software skills, workshops, programming activities, hackathons, industry connections, and project incubation.

President / Chairperson | ASME SZABIST Chapter | 2025 - 2026

- ? Led the university student chapter and supported technical events and student engagement.

EDUCATION

Bachelor of Science in Computer Science | SZABIST University, Karachi

Diploma in Software Engineering | Aptech Learning
