Red circle 3, "Stop 1 - show the stop" (MOA, NORTH LOT, LINDAU LANE, BLOOMINGTON, MN, USA", Then, "Drop Off Address - MARRIOTT CITY CENTER, SOUTH 7TH STREET, MINNEAPOLIS, MN, USA". DONE!

2/25/2025	E&H Reliable Airport Taxi (USA) 5829	- Change 3. This screenshot doesn't show the time format because when i try to take a shot, the time goes away but i showed you what i wanted earlier. I want it to be in standard format and not military. Also, I want it to look like the picture i sent you earlier where the customers can select the hours and minutes, then PM or AM. Also, the word "(Optional)" should be removed. DONE!
2/25/2025	E&H Reliable Airport Taxi (USA) 5829	- change 4. the price on the 6 passger and 7 passenger car is mixed up. the 7 passenger should be more than the 6 passenger. Also, I would think the wording on this picture for the medium suitcases and small suitcases would change when you make the changes we discussed earlier and you created a ticket for it. DONE!

		- change 5. Passengers should be "Number of Passengers" Luggage and suitcase should be "Number of checked in Luggage" Hand Luggage should be "Number of Carry-On Bags" Pickup Date & Time does not allow any change on this page. Return Journey should be; "Service Type - Round Trip" or according to the service type selected. Also, the rest of the changes are something I explained to you on the previous email. Even though I selected a round trip, the information on the right "Your Transfer" doesn't show the return information. Return Information should be in there as well.

2/25/2025	E&H Reliable Airport Taxi (USA) 5829	- Change 2 This is a round trip reservation going to the Airport, then a return pickup from the airport. It should not ask for a flight number for the first pick up because they are only going to the airport. The flight number should only be asked on the return. Anytime the pick up is from the airport, it should ask. They are also being picked up locally and dropped off at the airport so it should not ask for "Coming From". "Coming From" should only be asked if they're being picked up from the airport. the second place it's asking for a "Flight Number" should say "Return Flight Number". All the ones with the red x marks should be removed. DONE!
